

Clear Creek High School Course Selection

Planning for the next school year is underway at CCHS. Students will begin the process in February and are given tools to help make the course selection process successful. Students will enter their requests from home using their student log in information for Skyward. The parent may not enter requests using the parent log in information. The calendar below will help keep students and parents aware of important deadlines throughout the process. Please contact your student's current Counselor if you have any further questions.
